TOTAL:					0

Twenty credits are required in the MTS program. The table below represents course requirements, but the order is optional. It is highly recommended that introductory courses be taken first. Check the ‘Completed’ box only after a grade has been assigned. If you’ve received transfer credit for work done at another institution, put a check in the ‘Transfer’ column. If you’ve been waived from a course but need to take another one in its place put a check in the ‘Waiver’ column. Write the course that you’ve replaced it with in the ‘Alternative Course’ column.
