Research Methods in Development
Wycliffe College

Toronto School of Theology
Winter 2018

Instructor Information

Instructor: Thomas Power PhD
Office Location: Leonard Hall, Wycliffe College
Telephone: Office (416) 946-3526
E-mail: thomas.power@wycliffe.utoronto.ca
Office Hours: By appointment

Course Identification

Course Number: WYJ xxxx
Course Name: Research Methods in Development
Course Location: Wycliffe College
Class Times: TBA
Prerequisites: None

Course Description

The course introduces the various methodologies used in the field of development research including research design, quantitative and qualitative methods, data collection and analysis, research ethics, and literature surveys that will equip them for the needs of project design, monitoring, evaluation, and participative community assessments. Readings and online resources. Seminar with in-class review and exercises. Class participation, in-class exercises, research proposal.

Course Resources

Required Course Text

In addition, short instructional videos for each unit will be posted on the course website.

Course Topics

Unit 1 The Role of Research in Development Studies
   Reading: TBC

Unit 2 The Literature Review: approaches, sources, and writing.
   Reading: TBC

Unit 3 Research Ethics: issues, rights, and responsibilities.
   Reading: TBC

Unit 4 Participatory Research Design
   Reading: TBC

Unit 5 Quantitative Research Design
   Reading: TBC

Unit 6 Qualitative Research Design
   Reading: TBC

Unit 7 Mixed-Methodology Research Design
   Reading: TBC

Unit 8 Sampling Methods & Instrument Design
   Reading: TBC

Unit 9 Data Collection and Management
   Reading: TBC

Unit 10 Analysis: Quantitative
   Reading: TBC

Unit 11 Analysis: Qualitative
   Reading: TBC

Unit 12 Writing Research Reports
   Reading: TBC
Course Materials on Website

Course materials will be posted in advance on the course website on Blackboard. Following Week 1 materials for the succeeding week will be posted a day after class.

To access it, go to the UofT portal login page at [http://portal.utoronto.ca](http://portal.utoronto.ca) and login using your UTORid and password. Once you have logged in to the portal using your UTORid and password, look for the My Courses module, where you’ll find the link to the website for all your Blackboard-based courses. (Your course registration with ROSI gives you access to the course website at Blackboard.)

Note also the information at [http://www.portalinfo.utoronto.ca/content/information-students](http://www.portalinfo.utoronto.ca/content/information-students). Students who have trouble accessing Blackboard should ask the instructor for further help.

Course Learning Outcomes

By the end of this course students will be able to:

- Recognize the role of research in development studies, the value of learning skills in research methods, and distinguish good from defective research
- Recall and describe the terminology used in research methods
- Formulate a research question and hypothesis
- Conduct a productive literature search in print and electronic sources
- Identify and construct a research design project
- Compare and contrast the relative uses and advantages of quantitative, qualitative, and mixed-methods approaches
- Identify and explain the issues around ethics in research as they relate to subject matter, participants, and researchers
- Distinguish the different genres of research reports (oral and written), their contents, purpose, and readership

Students successfully completing this course will be able to demonstrate the following learning outcomes.

MTS 2.3

**Evaluation**

The final grade for the course will be based on evaluations in three areas:

1. **Preparation and participation (20%).**
   
   In addition to participating in the regular activity of the class, including the reading of the required readings and materials, students are expected to familiarize themselves with the online materials before the in-class session. They are expected to actively participate in the in-class exercises.

2. **In-class exercises (50%)**
   
   There will be 12 in-class exercises based on the material covered each week. They should be submitted prior to the next class.

3. **Research proposal (30%).**
   
   Based on the methods and approaches covered in class, the student will develop a research proposal of their own choice. 3,500-4,000 words.

**Grading System**

- A+ (90-100)
- A (85-89)
- A- (80-84)
- B+ (77-79)
- B (73-76)
- B- (70-72)
- Failure

Please see the appropriate handbook for more details about the grading scale and non-numerical grades (e.g. SDF, INC, etc).

**Late work (BD).** Basic Degree students are expected to hand in assignments by the date given in the course outline. [The instructor should stipulate the penalty for late work.] This penalty is not applied to students with medical or compassionate difficulties; students facing such difficulties are kindly requested to consult with their faculty adviser or basic degree director, who should make a recommendation on the matter to the instructor. The absolute deadline for the course is the examination day scheduled for the course. Students who for exceptional reasons (e.g., a death in the family or a serious illness) are unable to complete work by this date may request an extension (SDF = “standing deferred”) beyond the term. An SDF must be requested from the registrar’s office in the student’s college of registration no later than the last day of classes in which the course is taken. The SDF, when approved, will have a mutually agreed upon deadline that does not extend beyond the conclusion of the following term. If a student has not completed work but has not been granted an SDF, a final mark will be submitted calculating a zero for work not submitted.

**Course grades.** Consistently with the policy of the University of Toronto, course grades submitted by an instructor are reviewed by a committee of the instructor’s college before being
posted. Course grades may be adjusted where they do not comply with University grading policy (http://www.governingcouncil.utoronto.ca/policies/grading.htm) or college grading policy.

Policies

Accessibility. Students with a disability or health consideration are entitled to accommodation. Students must register at the University of Toronto’s Accessibility Services offices; information is available at http://www.accessibility.utoronto.ca/. The sooner a student seeks accommodation, the quicker we can assist.

Plagiarism. Students submitting written material in courses are expected to provide full documentation for sources of both words and ideas in footnotes or endnotes. Direct quotations should be placed within quotation marks. (If small changes are made in the quotation, they should be indicated by appropriate punctuation such as brackets and ellipses, but the quotation still counts as a direct quotation.) Failure to document borrowed material constitutes plagiarism, which is a serious breach of academic, professional, and Christian ethics. An instructor who discovers evidence of student plagiarism is not permitted to deal with the situation individually but is required to report it to his or her head of college or delegate according to the TST Basic Degree Handbook (linked from http://www.tst.edu/content/handbooks) and the University of Toronto Code of Behaviour on Academic Matters http://www.governingcouncil.utoronto.ca/AssetFactory.aspx?did=4871. A student who plagiarizes in this course. Students will be assumed to have read the document “Avoidance of plagiarism in theological writing” published by the Graham Library of Trinity and Wycliffe Colleges (http://www.trinity.utoronto.ca/Library_Archives/Theological_Resources/Tools/Guides/plag.htm

Other academic offences. TST students come under the jurisdiction of the University of Toronto Code of Behaviour on Academic Matters http://www.governingcouncil.utoronto.ca/policies/behaveac.htm).

Back-up copies. Please make back-up copies of essays before handing them in.

Obligation to check email. At times, the course instructor may decide to send out important course information by email. To that end, all students are required to have a valid utoronto email address. Students must have set up a utoronto email address which is entered in the ROSI system. Information is available at www.utorid.utoronto.ca. The course instructor will not be able to help you with this. 416-978-HELP and the Help Desk at the Information Commons can answer questions you may have about your UTORid and password. Students should check utoronto email regularly for messages about the course. Forwarding your utoronto.ca email to a Hotmail, Gmail, Yahoo or other type of email account is not advisable. In some cases, messages from utoronto.ca addresses sent to Hotmail, Gmail or Yahoo accounts are filtered as junk mail, which means that emails from your course instructor may end up in your spam or junk mail folder.

Email communication with the course instructor. The instructor aims to respond to email communications from students in a timely manner. All email communications from students should be sent from a utoronto email address. Email communications from other email addresses
are not secure, and also the instructor cannot readily identify them as being legitimate emails from students. The instructor is not obliged to respond to email from non-utoronto addresses.
